Project Title: The World of Smiski

I'd like to build this site as multiple pages rather than one long page, with simple navigation across the top that turns into a menu on smaller screens. The Wikipedia article covers where Smiskis came from, how they're designed, how collecting works, and why they've become so popular, so I want to group it into pages that build on each other: first what a Smiski is, then its story, the figures themselves, collecting, and finally the online culture around them. Since Smiskis glow in the dark and hide in corners, the site would use a dark palette with soft green glow accents. Each page would open with one large photo and a short intro, then break into smaller sections with a few key facts pulled out so it's easy to scan.

- **Home Page/Introduction** – Introduce Smiskis as glow-in-the-dark blind box figures from Japan and set the playful, slightly mysterious tone. The core idea up front: tiny creatures that secretly live in the corners of your home and only reveal themselves in the dark. A few quick facts, like the 2015 launch and 18 series so far. Links into each of the other pages.
- **The Story** – Where Smiskis came from. Creator Toru Soeya, CEO of the Japanese toy company Dreams Inc. (founded in 1996), and its connection to Sonny Angel. The meaning of the name, from the Japanese word *sumi* (“nook” or “corner”), the goal of reaching a wider audience with a gender-neutral look, and the 10th anniversary Birthday Series in 2025.
- **Meet the Smiskis** – The figures themselves. Their minimalist design (a phosphorescent green-blue body, round removable head, and the same calm expression), their size of about 2.5 to 3 inches, and a gallery of all 18 series, each with everyday activities like working, exercising, and bathing. A feature on Smiski Hippers, which stick onto laptops and desks.
- **Collecting** – How blind boxes work. About six regular figures plus one secret figure per series, pricing (about $12 to $13 per box, or around $150 for twelve), the rare secret figure (roughly 1 in 144 boxes) and its resale market, other products like the Touch Light and Toothbrush Stand, and the life-sized Smiski mascot at events.
- **Smiski Culture** – Why Smiskis caught on. The 2020s collecting and trading trend across Asia, the U.S., and Europe, their popularity with Gen Z alongside Sonny Angels and Labubus, and going viral on TikTok and Instagram through unboxing videos, shelf displays, and miniature dollhouse setups.
- **Sources** – This page will just list sources, including the Wikipedia page, as well as sources for photography and any other credits that need to be provided.
